

REMARKS/ARGUMENTS

Favorable consideration of this application in light of the foregoing amendment and the following remarks is respectfully requested.

The present changes to the drawings correct informalities and render the drawings consistent with the specification. For example, the "PRIOR ART" label of Figure 12 is clearly erroneous in light of the description at page 7, lines 9-11 of the specification that Figure 12 illustrates a third embodiment of the present invention.

The above changes to the specification likewise correct informalities. No new matter has been added.

Accordingly, examination on the merits is believed to be in order, and an early and favorable action is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
